

The Ultimate Service Agreement

Smart consumers have known for many years that planned saving for college tuition, investments, or medical funds takes the crisis out of the crisis! Why...because they can better plan their expenses. It's easier, and it's smarter. Well, at *Blue Air One Inc.* we have made it simple to eliminate the crisis repair bill or put in a new high efficiency system. Instead of a "cash crunch crisis"... you can save and accrue on planned basis with the Ultimate Service Agreement.

What is an Ultimate Service Agreement?

The Ultimate Service Agreement is regularly scheduled maintenance on your home's heating & air conditioning system. Just like changing the oil in your car, your home's total comfort system DOES need regular maintenance to keep it operating at peak efficiency and lower the risk of crisis failure. We will come twice a year on a regular schedule to inspect your home's total comfort system, including the air conditioner, heat pump, furnace, coil, drains, and thermostat to insure they are operating properly.

What do you get with your Membership Privileges?
